

The Signature Fundraising Product Range appeals to donors from individuals and families through to companies, large and small. Choose from our proven range or talk to us about customising a product to your requirements.

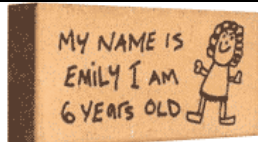

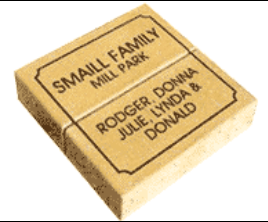

Name Bricks & Pavers

Names or messages are permanently engraved into single bricks or pavers, that are then incorporated into walls or walkways, recognising the support of contributors. The applications for this type of fundraising are limitless, as it works very well with other Signature products or on its own.

Double Paver Units

Names and messages are engraved over two pavers and enclosed by an engraved border. This product works best when sold in conjunction with Name Bricks or Pavers. Organisations can offer different levels of recognition for different sizes of donation, maximising participation across the economic spectrum.

Hand Drawn Images

Computer technology allows us to engrave hand drawn images onto pavers, making these a great fundraiser for schools and kinders. It is also an enjoyable way for children to leave a lasting impression.

Single Paver Logos

This fundraising product allows supportive businesses to have their logos permanently engraved onto a single paver. This product works best in conjunction with both Name Bricks or Pavers, and Business Logo Panels. Fundraisers can use this product to entice businesses to make a larger contribution as it creates an effective advertisement.

Business Logo Panels

These allow larger businesses to have their logo engraved into a panel of 32 pavers (900 mm x 900 mm approximately) in recognition of a much larger donation. This product works well in conjunction with Single Paver Logos and Name Pavers, creating a fundraising campaign that allows for different levels of recognition.

Engraved Clay and Slate Tiles

Messages, names and logos can also be engraved into wall or floor tiles. They are an attractive and robust alternative to brass plaques, and are easily attached to existing structures. This is ideal for organisations that may not have room to create a new wall or walkway.

Large Clay Pavers

These large square clay pavers (300 x 300 mm or 400 x 400 mm) can be engraved with names and are ideal for logos. Contact Signature for further details.
